

QUALITY POLICY

NEW COSMESY, leading Society in the sector of production, filling and packaging of body and room fragrances, has decided, within the company rules, to consider the Quality as a determinant element for the products/services realized for the Italian and international market in the fashion and cosmetic sectors.

Among the possible ways to achieve and maintain a high-Quality level, the Society has decided to provide the company with a Quality Administration System (SGQ), which is compliant with the UNI EN ISO 9001 and UNI EN ISO 22716 rules, and suitable to reach the goals set by the Management.

In this context, the strengths on which the company strategy focuses are the following:

- ✓ *Keeping a high-quality production to satisfy the customer needs, with particular attention to containing costs.*
- ✓ *The flexibility in the organization of the resources and of the working phases, with the aim of answering promptly to customer requests.*
- ✓ *The continuous search, in the national and international market, for qualified suppliers, who have to meet the qualitative and competitive standards.*
- ✓ *The involvement of staff, to increase awareness in the execution of their work activities and the consequent improvement of the workplace.*
- ✓ *Informing and training all internal and external staff and conducting workplace controls, which is essential to ensure compliance with the Good Manufacturing Process (GMP)*
- ✓ *The careful evaluation of the risks and opportunities related to the internal and external context in which the company operates and the identification of factors that could prevent the achievement of the planned and constantly monitored goals.*
- ✓ *The constant updating and application of the requirements dictated by the laws and regulations in force.*
- ✓ *Constantly improving the operating standards*

The involvement of company resources in the realization and implementation of the Quality Administration System, the training and the information of staff and collaborators, the absolute respect of the ethical values and of the applicable regulations regarding Quality, Cosmetic, Environment and Safety: these are the elements that the Management takes into consideration to ensure the continuous improvement in terms of quality and organization.

The Management engages to assure that the policy is understood, shared, and implemented at all levels of the organization and steadily updated during the periodical reviews made by the Management.

Moreover, the Management engages to make what is listed in this policy the reference framework for the Quality aims, ensuring the achievement of the intended results of all the processes.
